That's the amount Raiferty claims he has spent in patent medicines fighting a daily dose of smoking-caused nauses over the past four year.

"No Smoking" signs were posted all over the communic cars, but fellow passeng-ers ignored requests to obey them, and CM conduction would not enforce the regula-

tion.

During the course of the trial, judgment for which is to be handed down in September, Rafferly conceded that, since lodging his formal complaint during Air Pollution. Week last February, there has been a "10,000 per cent improvement," with application of the no-emothing rule.

Airclass of the control of the complaints of the pollution was being a superscript of the pollution.

Asked why he refused to drop ms com-plaint now that the regulation was being enforced, Rafferty said he feared such measures were only temporary, "Hell is paved over with good inten-tions," he said.

Decision on Way

Drivers should soon know who can lay down the law to motorists convicted of driv ing while their ability is impaired: the judge or the province.

The Supreme Court of Canada has begun hearing arguments involving two sp ific cases which will have an impact in the disposition of justice in such cases from

Whatever the outcome, the sconer the decision is handed down, the sconer the law — and those that attempt to enforce it — will seem less ambiguous to the public.

Male Cooks Shy

There has been a noticeable absence of male contributors to The Intelligencer women's section weekly cooking feature "Quinte Cuisine", featuring favorite recipes of amateur area chefs.

To clarify the situation for the benefit of our readers, it should be explained that the lack of male recipes undoubtedly stems from one of two reasons: either all the best cooks in the area — male restaurant and hotel chefs — are too busy at their trade, or publicity scrounging.

Police and Pay

A Gilbert and Sullivan refrain goes: "A collectman's lot is not a happy one."

If members of Ficton's town police de-partment have their contractual way, their ob will not be merely happy, it will be finalty ecstatic.

ess in their arbitration bid for a 31 per cent pay boost in a one-year contract would mean that a first-class constable's pay for policing the town of 4,200 would have sed by a staggering 51 per cent since

Currently, salaries for the eight-man force, including a chief and sergeant, begin at the \$3,000 level, since all of the six contables fall in the first-class category.

That, in itself, would seem a reasonable wage for a person in a community Pictor's sinc whose job prerequisite was a grade 10 setuestion.

Turning up their noses at the town's 15 rimming up their noses at the town's 15 per cent increase offered over a two-year period, the constabulary are alming to up their annual ante to nearly \$12,000 per man. Ironically, the force's duties seem to have decreased, if anything, in the past few

And it has only been recently that police college training has been standard procedure for Picton force members. It wouldn't be too frivious to call a couple of weeks at Aylmer a working holdsay, either.

It is becoming a widely-recognized fact that the world needs better policemized that the world needs better policemized that the world needs better policemized that the world needs more of applicants for one of society's most vital roles.

But at this moment in time, Picton's police association is a long way out of its league.

daily service to London, Manchester & Prestwick ... no deposit ... no cancellation fee

- The above fare gives you from 22 to 45 unfor-gettable days in Britain, leaving Toronto or daily scheduled flights to London and Manchester during June, July and August (\$255 for September and October departures). The fare to Glasgow is even less.
- You fly on magnificent BOAC aircraft —747's, 707's or unique VC10's (one of the quietest aircraft ever built.)
- You don't have to book in advance—but an early reservation will avoid possible disappointment.
- You travel when it suits you pick your own out-ward and homeward dates within the 22/45
- Whether the aircraft is fully booked or not, we leave as scheduled—some charters cancel if there are too many vacant seats.

- Children under 12 travel for half fare. Youth fares
- CHARGEX cards acceptable.

You enjoy courteous and attentive inflight service to the highest international standards. It's British.

MANULIFE EXPANDS TO BELLEVILLE

143 Front Street North 966-1663

Our westward expansion from our Kingston headquarters marks the second chapter in our success story. We need room to expand.

The prime reason for our success is the professional qualities of the men who represent Manulife. They have earned the trust and confidence of an increasing number of policyowners by bringing high standards of knowledge, skill, service and personal integrity to their client-counselling.

Manufacturers Life backs them up with low premium rates, progressive medical underwriting, comprehensive life insurance and retirement annuity plans along with disability income and variable insurance plans.

Mr. Wright and his associates extend a cordial invitation to policyowners, clients and the general public to visit our new offices on Front Street North.

If you're under 55 and work full-time for a government unit or a company with three or more employees - we GUARANTEE to accept you...

Imagine a plan that says: You must collect cashsick or well!

Yes it's true...a plan that actually pays you back your premiums if you stay well for 10 continuous years, or pays you...

\$70 a week for 17 weeks, plus \$105 a week for another 87 weeks

when you're sick or hurt and can't work because of a covered disabling sickness or accident. And you don't have to go to hospital to collect! No medical exam - no salesman to see - send no money to apply.

When you can't work at your regular job because of a disabiling sickness or in-jury covered by your plan and are under a doctor's care you get:

\$70.00 a week for the first 17 weeks you are out of work and then you get: \$105.00 a week for up to another 87 weeks for the same sickness or accident.

Yes, you get a total of 104 weeks of benefits—two full years, or \$10,325 worth of protection for each covered sickness or accident.

If the same condition comes back after you have been back on the job for 6 months, you are entitled to another full 104 weeks of benefits. Benefits for any new covered condition begin immediately, of course.

☐ You collect whether you're at home ... in hospital ... rehabilitation centre ... nursing home...or any other treatment facility... and confinement is not necessary.

Your cash benefits start on the first day you are not able to work due to a covd accident whether you stay home or go into hospital.

Sickness benefits also begin on the first day for a covered sickness when you go

Sickness benefits begin on the eighth day when you stay home and don't have

You are paid from your first day home, of course, when your home confinement

☐ Men collect even if they are disabled while unemployed or work part time . . . but you must be employed full time when you apply.

☐ If your disability lasts as long as four months you don't have to pay any more premiums until you go back to work. Meanwhile we keep paying you full benefits premiums unit you go back to work, meanwrite we keep paying you full benefits and your policy remains in force. Even after two years your policy will continue in force if you have enrolled in a retraining program to prepare you for another type of employment and you resume payments at the end of the two year benefit period.

☐ Your family (or any beneficiary you choose) will be paid \$70.00 a week for two years—ā total of \$7,280,00—in the avent of your death from accidental causes within 90 days of an accident.

☐ Your premium rate can never be raised...never.

If you stay well you collect:

☐ All the money you have paid in premiums for each 10 year period will be returned to you it you stay well and collect no benefits. Your first 10 year period begins on the effective date of your policy. Each additional period begins at the end of the previous period and you get all your premium payments back at the end of each

☐ Upon retirement—or before, if you want—you may choose to take your money plus all interest in one single payment or ...

Ti Get a monthly income for the rest of your life after age 65.

What this plan doesn't pay for:

☐ Injuries caused by war.or act of war; participation in a riot or other civil commotion or during the commission of a crime (unless you are the victim of the crime). ☐ Mental disorders, alcoholism and drug addiction. Pregnancy, childbirth, miscarriage or conditions arising therefrom.

☐ Pre-existing conditions (conditions you had before the Effective Date of your policy) are covered beginning on the Effective Date of New Syour ecoleved treatment or midclast advice for them anytime within two years before the Effective Date. If you did receive such treatment or advice within that period, the condition(s) with pecvered AFTER your policy has been in force for two continuous years.

☐ Women are not eligible for benefits if unemployed or work part-time.

monthly retirement check will depend on how much money you have paid in premiums and how much interest you have earned. But the exciting point is this, if you take this policy now as a long-term protection for yourself and your family, you absolutely cannot lose. Sick or well—YOU MUST COLLECT!

You can cancel anytimebut we can't

Your plan is Guaranteed Renewable to Age 65. That means that we can never cancel your policy during your active working years so long as you make your premium payments on time, Yee, no matter how often you collect ... no matter how much money you collect we cannot cancel your policy. Nixon Suspected Dean's Implication

Ehrlichman said that during his own-short-lived investigation into the Watergate affair, Jeb Magruder, once the second in command at the Nixon re-election campaign, told him former attorney-general John Mitchell reluctantly approved the final plans to wiretap the Watergate.

Ben Wicks +

Ehrlichman quoted Magruder as saying final approval came at a meeting in Key Biscayne, Fla., in late March. 1972. Only Mitchell, Magruder and cam-paign aide Frederick LaRue were present.

"LITTLE JUNIOR"

he MT-L Proof positive that nice things come in small packages Whether you're eight or eighty, this mini blke is maxi fun. It has a lot inside a little. It displaces 73cc's which is nothing to sneeze at. Plus lots and lots of torque in the low-end department. So you not only get a good unt of power in the dirt, you also get a quick start on the way to top red of 40 mpb. which is a lot of zip on any trail.

People Come Last?

People Come Last?

Who or what matters must in our society? The man? The manchine? The system?

All too often it is mortal man, the person of fieth and blood and feelings, who is left out in the cold and is last man on the totem pole in the context of progress, although he may be responsible for that very moorres.

progress.
We thought of these matters when reading of the official French reaction to the crash of the Sowlet supersonle airliner at the Paris air show. Local officials, who had tried to pressure the government into banning such planes from an airport being but nearby, binned "those who permitted the organizers to hold an air show in such conditions."

conditions."

Armed Forces Minister Robert Galley, however, said the show would continue, adding: "It is unthinkable that an international display of this scale should be suppressed." We detect here the same kind of cavalier attitude that dominates French actions with regard to the modear tests in the South Pacific.

Debrah, M. Galley, is not concerned.

The minister did indicate there might be an independent injury (spart from one into the crash itself) into the question of increased astely precauting the control of the control o thing to be desired.

Regretizably it is too late to save the lives of the six crew and eight on the ground—just as hindsight also predomin-ated a while back in the wake of the crash of an obsolice lighter plane into an ice cream parior in California when several children were killed.

Officials at an event such as this should carefully set the aircraft and airport facilities and environs beforehand. Similarly, at car race tracks, which of late seem to have been extremely accident-prope.

Mayor's Pain Behind Her

Mayor Robin Jettrey may still have the worries and headaches of guiding the affairs of Belleville city council but the has been relieved of a 10-year pain. The mayor chair, received a facelit pasterday, the first one in a contary, when it was re-uphotstered by the Broble Uphotstering Co of Belleville. Eart Beldrick (Herl and Chris Williams returned the chair to the city council chambers where it has ast Milliams returned the chair to the city council chambers where it has ast Milliams.

Association (SCLA) agene endeaded and Association (SCLA) agene endeaded and Association (SCLA) agene endeaded and SCLA e More fishermen are hooked on Evinrude than any other outboard.

Wherever the fish are billing y ind an Evinrude to help bring hem home. No other fishing motors outsell ours. Why? The are a lot of different reasons. Because there are a lot of different residence. But all of them designed with features that fishermen appreciate, And but with Evinrude's reliability.

BELLEVILLE, ONTARIO, FRIDAY, JUNE '

These new "symbol" road signs are replacing the conventional "word" signs that we've been familiar with throughout our driving careers. It's important for every driver to quickly recognize each sign—and understand its meaning, Just as It's Important for every driver to take his car in for regular car care maintenance. For maximum performance, safety and operating economy. With minimum harmful exhaust emissions.

It costs not to tune every 10,000 miles.

Putting off a tune-up can cost you plenty. Costs that affect your wallet. Your safety. Your car's dependability. And your health.

Tests have shown that an untuned car wastes, on the average, a gallon of gas from wastes, on the average, a gainon of gas from every tankful...takes an average of 7½ car lengths longer to pass a vehicle moving 50 mph...has over twice as many "won't starts"... and spews substantially greater amounts of harmful pollutants into the air we breathe.

Consider the costs. We think you'll see why it's smart to take your car in for a tune-up every 10,000 miles-or once each year-with Champion spark plugs. The bra that's always right. For every engine.

Picasso Legend

Last December we republished mater-ial from The War Cry, journal of The Sal-vation Army relating to observations said to have been made by the late Fablo Picasso.

to have been made by the late Pablo Picasso.

The material has Picasso saying in part,

when I am alone, I do not have the effrontery to consider myself an artist at all...

I am only a public clown — a mountebank

I have understood my time and have exploited the imbedilty, the vanity, the greed
of my contemporaries..."

or my contemporaries. ..."

Subsequent to the article's appearance, a Foxboro reader sent us a copy of correspondence he had had with the office of the Secretary of State. It mentioned contact on the subject with officials of the National Gallery in Ottwan who in turn stated that the article quoted in The War Cry was "a forerer."

However, this is far from being the case, to judge from letters and material forward of to us by LL-Col. Eric Coward, editor-in-chief of The War Cry.

Picaso's "confession" evidently has appeared in many publications, including the Hallan journal, Libro Hero, pages 285-286, in November 1981. It was quoted in more recent turne by Jeffrey St. John in The Chicago Tribune and by Ruth Chandler in The Regina Lender-Post.

The public agonizing in the United States over the Watergate scandal, with its maximum exposure on television screens across the continent, is becoming almost as tiresome as the exploits of the Skylab as nauts at this stage of the space gas

Doring.

The first steps on the moon a couple of years or more ago were as cataclysmic an event, in terms of man's accomplishments, as any in history. So great was the sense of anticipation, so intense the excitement and relief when the mission succeeded, that the rest was anti-climax.

So it is now with the Watergate hearings.

relief when the mission succeeded, that the sound when the mission succeeded, that the sound is a sound to the sound the sound

and on:

When the Senate inquisitors finally exhaust themselves, those who must reach some conclusions in this murky affair will be as hard put to do so than were Canadian viewers of the Jaina series on television a while back. Like who is who . . . and who did what?

A couple of years hence, if not before, the whole retainablely business will be but a top to the whole retainablely business will be but a requirement of the property of the period of

Time of Opportunity

School holidays are just about here, with high schoolers tolling first over exams. with high schoolers tolling first over exams. Is there rejoicing? Well, we would hope that the school break will bring pleasure at be-ing released from the academic grind, plus opportunities for jobs and/or constructive recreational activities, travel and the like.

We know that one group of selected students will be going to Alberta and this is an excellent prospect. What of the rest? Well some may travel on their own, or with fam-lity or friends. Many young people from the Quinte area and from other pacts of Ordanio have been overseas of late on those Medity nave been overseas of late on those mem-erranean cruires which combine travel with shipboard study and the chance to meet their counterparts from other lands. This will have whetted their appetite for more.

will have whethed their appetite for more. Growing up is a painful enough process, but learning about other environments and people at first hand helps smooth-flee path. Those who have no such opportunity miss a great deal, worse, they tend to stick in the closed and comewhat dullard moid of their immediate surroundings. Including school where long faces and the look of tragent which no many of the pounger generation. which so many of the younger generation equate with sophistication and "cool," to

often predominate.

So travel if you can. And enjoy life in
the best way you know how, with respect for
self, for others, and for life itself.

There Too

Strange how even the arch exponents of the classless society, sharing of national wealth and all that — the politicians and bureaucrats of the Communist world find themselves more and more espousing

find themselves more and more espousing western-style concepts.

Hungary, for instance, its said to be en-joying a boom stemming in large measure from the use of capitalistic methods of do-ing business, while Foland, where in the immediate postwar period it was unwise to admit to any aristocratic family ites, it is now very much in vocue to be able to claim now very much in vogue to be able to claim

good connections.

Interesting indeed how times and habits change, even in the rigid societies of that part of the world.

mare you occured yet what you will be giving the man in your life as your token of appreciation? It needn't be large, of course, for many families survive quite happily on a tradition of greeting cards. However, if you are thinking of a gift, there are hundreds of contribitions.

Good grooming is important to men, who seem to have blossomed out in fashion and fad recently, in fact, men look much more attractive these days, don't you spee? And to keep them that way, there are some marvelous grooming also not he market that any father would be thrilled to receive. Soaps, colonoes, sharing crasms, dec-Soaps, colognes, shaving creams, deo-dorants and aftershaves are just a few.

Well, you're getting the idea. Grooming aids could be just what the doctor ordered for the problem fathers. You know the ones . . . difficult to buy for because you just don't know what they might like.

Cosmetics for men , even if some men don't agree entirely with the principle of the thing , are becoming part of a rapidly expanding market. As many as 20 different lines (often the ny as 20 dirrerent lines (orten une leading makers of women's comertics feature a men's line as well) are begin-ning to supply everything from body creams to hair spray and bronzing sticks. And men are buying them!

Even if your father says he isn't the type to buy these items for himself, he just might appreciate being presented with something new and different from a favourite son or daughter.

I hope these suggestions will be of some help . . good luck with your shoppingl ISOBEL

I ONCE asked Al Balding to rate the psychological factor in golf. Ai is one of the country's top golfers, winner of the World Cup in 1968 and five times Canadian

in 1968 and five times Canadian PGA champion, so he should know better than most.

"Competitive golf on any level is about 90 per cent psychological." Al replied without heaitantion. "The great players are those who have learned best how to apply tension controls, mental imagery and 'golf thinking' gen-erally, as Ben Hogan used to call

Al was quick to point out that Al was quick to point out insi-he did not want to downgande the mechanics of the game, the skills and the tactics. "I fully recognize their role," he said, "or I wouldn't have spent so many hours and developed so many large blisters practicing be mechanics.

Skills

What Al meant was that in learning the golf skills and espe-cially in applying those skills un-der the pressure of a match, the problem is 90 per cent psycho-logical—whether you are trying to break 100, whether you are a pro trying for a \$10,000 purse or whether you are trying to best your pal for the drinks.

When Hogan talked about "golf thinking," be was refer-ring to things such as what clubs to use for certain shots, how to play certain holes and visualiz-ing the various circumstances

ing the various circumstances that might develop in a game and what you will do. But be careful not to do your golf thinking while you are actually making the shot. If you do—and the more pressure you are under, the more you are likely to do this—your drives are likely to be wild and your putting atro-clous.

Thinking You're thinking-about the problems you encountered in practice, about the mechanical aspects of the shot, about the de-

aspects of the shot, about the de-cisions you have to make, think-ing through the shot—has to be done before you address the ball. The actual swing, regardless of the kind of shot being attempt-ed, should be made without conscious thought: You decide where you want the ball to go, you visualize it going there... and then you step up and hit, let-ting everything just happen.

Walking-it's just as good as jogging for your fitness

METHODS OF WALKING

serval: Walk easy 30 seconds, brisk for 30 seconds. Repeat until reasonably tired. Progress by gradually increasing number of easy/brisk intervals and/or length of brisk walking.

Continuous: Select a specific distance or time limit and start cove at an easy pace. Gradually increase pace from time to time. THAT old fashioned form of locomotion — walking — has become a lost art with most North Americans in recent years. There are so many ways around. And that's bad

Walking was a major form of fitness activity in the "good old days," which is why heart con-ditions and the other degenera-

Most persons have a tremen-dous potential for walking, in-cluding older persons, if they build up gradually. But it must be done correctly. The accompanying list of methods outlines some of the right ways to go

HOW DO YOU KNOW OTHER RUSTPROOFERS WON'T RUN OUT BEFORE THEIR **GUARANTEES DO?**

Someone who's been in the rustproofing business for two years might give you a litetime guarantee. But his guarantee might last a lot longer than he will. Ziebart has been in the rustproofing business 18 years. We plonered rustproofing. And we've inspired a lot of imitators. In the first place our special compound is patented.

Finally, our process is so effective we guarantee it. If you have your car Ziebarred before it's been driven 3000 miles, we'll guarantee it won't rust through for ten years. No matter how many miles you drive it. We put it in writing.

We don't want you back because the job was done wrong.

We want you back because the job was done right.

PHONE 968-6767 31-45 STATION STREET BELLEVILLE

"That's not some idle claim. That's the way we try to do business.

"You see, we know that if you have to bring ur car back because we didn't do the job right, you're going to be inconvenienced. And if this happens, you may not come back at all. What's more, if we inconvenience enough customers well, we're just apt to be out of business.

"There have been any number of promising dealerships that have failed to keep such promises because they didn't pay enough attention to their service departments.

"Not us. We have been serving Quinte motorists for over 49, years.

Everyone agrees that cinemas should not show previews of indecent films when the authence has come to see a film that is classified as "green?" for adults and children. Cinema owners will have to be more discreet with their film percentiles.

The members of this board should not have the right to ban fillms or cut out sequences of films. They are already doing an excellent job inform-ing the people of the moral quality of films.

Buy Dad our \$6.50 shirt

(3 for \$9,99)

The price: A very special value for Father's Day: We're offering our superb Profile brand short sleeve shirt, which provides excellent value at the regular price of \$6.50, for \$3.59 or any 3 Profile shirts for \$9.99, expressly for Father's Day.

The fabric: is an intimate blend of 65% polyester 35% combed cotton providing what we consider to be the ultimate in a light weight fabric, cool and wonderfully comfortable to wear, yet retaining all the wanted permanent press features. It's machine washable, tumbles and fully sanforized.

It has expensive features: those small but important extras found in expensive shirts, such as the new 3% inch semi-long pointed collar styled for today's wider width ties, color matching buttons for that total look, neatly cuffed short sleeves and a chest pocket to put

The colors and patterns: have been spe-

cially designed to compliment any wardrobe. There are four distinctive looks to choose from ... a frosted pastel plain in powder blue, mint, beige and salmon . . . a rich deep plain in dark blue, chocolate, red and black . . . a glen check print in navy on white, chocolate on white, burgundy on white and black on white ... a bold houndstooth print in navy on white, chocolate on white, burgundy on white and green on white.

Sizes 141/2 to 171/2: but do make your selection early while there is a complete range of sizes available in all patterns and colors.

Buy them by the box: at \$9.99 per box of 3 you may solve all Dad's summer shirt problems in one purchase and enjoy a 48% saving !

Ties to match: we have neckwear to color compliment each color shade at \$5.00 and \$6,50. Our sales personnel will be pleased to help you make the right selection.

No-One To Talk To

While United Auto Workers hold out for a master table settlement with Northern Electric Co. Ltd., company executives waited in vain at the Four Seasons Hotel yesterday for local representatives to show up to negotiate. From left are Belleville plant personnel manager Tom Hennebuty, Northern's Montreal-based labor relations manager George Meaney, company chief negotiator and assistant vice-president of personnel

Alex Cregan and Believille plant president Dave Vice. The company arranged opportunities for meetings with locals in London on Tuesday, Believille on Wednesday, Toronto foday and Friday at Kingston. UaW chief regotiator 80s Nickerson said only Thursday's meeting would be attended by the UaW to discuss a contract for office employees at Believille, Bramales, London

Pioneer Spirit

The pioneer spirit is something from which we can all derive inspiration. We were reading of a Welsh-born citizen of Prince Edward County who has passed on and the obituary notice said he came to this country obituary notice said he came to this country in a sailing vessel when he was only a month

That was some 90 years ago and his early working years included drawing freight from trains and boats, drawing four and coal, filling lee houses, moving planos and smoke stacks, and helping with the bell in the old St. Mary Magdalene church (now the county numsum).

of Picton.

It was a career in the ploneer tradition, before the age of specialization and a college education for all. It reflected a willingness to tackle anything and a devotion to what today is rather derisively called the "work ethic." In anort, qualities that are often in short supply in this latter day.

Economic Squeeze

Knowing the ways of Government we cannot see it happening, but business and consumer affairs writer Vincent Egan retribeless has a good suggestion with regard to today's hard-to-find-let-alone-afford

In other words the Government would not stand to lose much, but to the hard-pressed income-carner and taxpayer it would be a significant concession.

Hunger Pains Helped Launch Career of Former RCMP Boss

By THE CANADIAN PRESS

"Anticipated hunger."
That was th motive that launched George B. McClellan on a 35-year career with the Royal Canadian Mounted Po-

lice.

It was 35 years that saw him rise from a recruir, snatched from a curtailed training program at the police training depot in Regina to face a demonstration in Emosion in the depression days of 1902, to the post of commissioner of the force in 1931.

sioner of the force in 1963. He retired in 1967.

"My motives for joining the force were the purest—antic

They might not pass the test today where great concern is directed to a miant motivation toward a career in the force. However, I was a product of my time and the search for a bed, three meal a day, some clothing and few bucks went on throughout the land and was understoot the land and was understoot the land and was understoot the land and was understoot.

That or real sense of purpose or carreer," says Mr. McClellan, now ombodsman for the province of Alberta, in an article published in the Canadian Geographical Journal in an issue devoted to the ROSP in their centennial year. "I needed a stopping place until the winds of want blew over. I found both." "I had entered the force herefore plucked from the anks after only three month raining and sent to Edmonto gainst the day of the illegaarch." he recalled.

Movies Again

The spectacle of Picton's closed Regent theatre has been a sorry one. Now after being out of operation since January 1, the movie theatre is open again, with showings every evening but Wednesday. The theatre movie theatre is open again, with showings every evening but Wednesday. The theatre had a forlern look last time we drove past and it seems that owner Miss Louise Cook was of the same pund. It left a hole in the main street, she said. We hope the tiệcatre has a renewed lease of life; for one thing Miss Cook is heiping to attract the summer tourists who have helped support the Regent in the past.

Trade With Eastern Europe

By HAROLD MORRISON CP⁰Foreign Editor

VIENNA (CP) — Trade op-ortunities in Eastern Europe re expanding but a Canadian fficial questioned whether Ca-adian exporters are taking full dvantage of the market poten-

tial.

Warren Maybee, a Canadiun embussy trade officer, suggests that more Canadian salesmen should try to visit the Communist countries where the state shoppers are hard bargainers but eager to snap up a good deal.

One of the recent "success stories," says Maybee, a native of St. Catharines, Ont., is the sale to Romania of a Canadian-designed and Canadian-pro-duced #4-million wind tunnel.

ewhere," Maybee says, "We in the contract partly because persisted through this office h vists and other follow-

ups. The wind tunnel, which will be used to develop Romania's aviation industry, was produced by Champslain Power Products Lid. of Teronic.

In terms of Canada's over-all foreign trade, Eastern Europe is not a major area. The annual trade figure runs to about \$30 million, equally divided between exports and imports.

"They are just good business-men," Maybee says. "They see a bargain and go after it."

Now, which will it be? Homo, 2% skim? You decide!

Milk is more than just food value. It is another kind of value, too; value for money. If your family drinks much milk, it will loom fairly large on your food budget, and you may therefore think it is expensive.

But think again: about what you get from milk for every crex you spend on it! Every glass you drink provide calcium, protein, riboflavin, Vitanie A and phosphorus...plus thiamine and almost always Vitamin D as well

NOWATDOMINION! Easy-to-use Guides to BETTER NUTRITION

by Joan Fielder

Joan Fielden Dominion's Home Economist Consultant

She wants you to know more about nutrition because she's concerned that many Canadian families don't really eat nutritionally balanced meals. "We eat what we like rather than what we need. The trick is to combine both."

The facts from Joan:

Joan has prepared a series of "Guides to Nutrition" A new one will be offered free, every week at your Dominion store. Each will answer a lot of the questions you have about proteins, calories, food preparation, budgeting to eat better, weight control. In them you will also find easy to follow charts and menus to help you plan and shop for economical and nutritionally balanced meals.

Get your

Advertising Trends

Some advertising market researchers, rding to a recent Canadian Press reaccording to a recent Canadan Press re-port, say the emergence of the working wom-an will be the most important marketing factor of the seventies. They warn that ad-vertisers have to re-svaluate their traditional

selling appeals to women.

And J. M. Reere, president of McCann-Erikson Advertising of Canada Ltd., and president of the Institute of Canadian Advertising. president of the Inskitute of Canadian Advertisers, says that advertisers have taken note of female spending power and in some cases are "de-sexing" the approach in self-ing products where both men and women are likely to be making the buying decis-

He explains: "Unrelated sex appeal is on a decline. It really doesn't make much use to show a beautiful woman on the fender of a car."

It was all the more ironic then to note, at about the same time this report was re-leased, an issue of Bus and Truck Transport, featuring on its cover a delectable young blonde. She is pictured in a classic young blonde. She is presured in a classic profile study, head and shoulders and with a hand cupped over a cylinder end. Per-haps it is a muffler for alongside is the leg-end; "This is no way to control whiche em-issions in Canada," and it adds: "It makes no more sense than the unrealistic U.S. fed-eral automotive emission standards for 1975-

On an inside page is the following: "The General Motors truck centre in Toronto cooperated in this cover by Ivan Kotulsky, with model Tricks Schink."

with model Tricks Schink."

Well we would certainly hate to see the
disappearance of preity models from the
auto or any other field. And yet, in this parficular case, and in line with fair play for
the fair sex, a mechanic in coveralis might
have been more appropriate on the outside
of this most masculine of publications.

Extra Control of the C

HAMILTON (CP)-Mayor Victor Copps of Hamilton Lainned Wednesday to have worn a victory in a meeting with Ondario's regional government co-ordinator, but the city lost on other key lasses. Mayor Copps asid the victory lay in a piedge that the region would pay for assets taken over from local municipalities where the Hamilton-Westworth re-

the Hamilton-Wentworth regional government comes into being next Jan. 1. "That means the city will be paid the difference between value and remaining debt on facilities such as boupties and pointer stations," the mayoridation villout compensation is removed. It was that threat that led us earlier to accuse the government of robbery."

Municipal Progress

Municipal Progress
When retiring city manager J. R. Reynolds addressed the Kotay Cito broadprobably the most remarkable impresentation probably the most remarkable impresentation probably the most resultant proposed to the proposed proposed parks and recreational development—under successive councils and city administration in little over a doesdore to mention it all, but clitzens have the evidence of their eyes and Mr. Reynolds did not include the many industrial projects, large and small, which have also come to Bellevitle in recent

years.

Mr. Reynoids said he would venture to say that more had been accomplished on the municipal scene in the past 18 years than in the 35 years prior to 1960. And when we spoke of the ordense of the eyes, the city manager noted also that some changes are zot wighle, such as underground services which sometimes are forgotten for that

which semetimes are forgotten for that reason.

Much more in the way of projects and improvements, be add, will be necessary if improvements, be add, will be necessary if the property of the

re is counsel that is in line with Mr. Here is counsel that is in line with Mr. Reynoids' own orderly and businessilike way of doing things. As he nears retirement, the accomplishments we have mentioned may be regarded as part of his own legacy of service. In abort, a fine record on the Belle-ville municipal scene.

Turbo's Comeback

So Canadian National's turbo train, 30 per-cent more powerful and with 15,000 miles of testing behind if, returns to service today between Montreal and Toronto.

Youth and Population

When we think of young people, from the infant stage on up, and what is needed for their overall wellbeing and development, specific images come to mind. And harsh cameos they are, for we are concerned with situations that need remedying rather than nose in which the young are well-adjusted ad, to a large extent, can look after them-

schras. We think for example of children living in ghettos, amid powerly and hunger and conditions that are unsatilary; children living in conditions of hopelessness and of printial and material deprivation, or where there is danger in one form or snother. We implicitly a many the conditions of the condition of the conditions of the c ing asleep at home in Berkeley, Calliornia, the other day, when she was shot by a "gentie, quiet man who loved children." A friend of the child's father, the man had come to the Priddy home in the early morning; it was said he often practised on his trumpet in an adjacent garage, but this day someone thought he was a prowler and the police came and the man killed one of them; then while holding others hostage, he shot the little girl. This "gentle, quiet" man, who had criminal record and who now was said to ave gone berserk, was killed shortly after-

have gone berserk, was killed shortly atter-wards by police buildets.

A tragleally common enough story act-ually in the United States, where some 18, 600 g-rople die in this faishfon annually, and we may ask does the rising generation have an answer to this or any of the other prob-lems—the ghettos and so on—we have mentioned above?

Can we look to youth for better things? For better or worse we must. Over half the world's population, says the UN booklet, is under the age of 25. In "developing countries this proportion is even higher, with about 45 per cept under 15 years. Youth, it says in brief, might be heard.

"ROSE WEEK"

WHEREAS, the rare days of June are with us and our City is showing its most beautiful face:

WHEREAS, roses are blooming in pro-fusion in many gardens, and Corby Park in particular is a picture to admire and a floral feast for tired eyes;

WHEREAS, Rose Festival '73 is being sponsored by the Belleville Garden Club at Centennial Secondary School on Sunday, July 1st, 1973, and there, roses of surpassing merit will be on display;

In gratitude and appreciation of all this beauty around us, I hereby declare the week of June 25 to July 1st, 1973, as "ROSE WEEK" in Belleville.

For safest all-round highway-backroad travel, 4 cross-ply Nylon construction is admittedly the best. Costs more to make but costs you less than bargin sale tires. If you install our Safety 99' tires on your car, you won't have race-track tires, but you will have tires made with the same yolon fibre. Same too, as on aircraft. It's Dupont 66 Nylon — the best on all 3 counts: Safety, Economy, Strength. Extra bonus: It smooths out so fast you hardly have time to notice any overnight set.

TWIN-PLY DUPONT 66 NYLON BEST-SUITED FOR HI-SPEED HIGHWAYS

Shaped like a European Radial, the Whippet is an all-muscle, cool-running, twin tross-ply tire. Even at double the price, we couldn't make a better high-speed tire and still provide that soft cushion-ride. Made with Dupont 66 Nylon cord for more strength, less overnight set, it's the Number 1 choice of thousands of motorists!

Twin-Ply Dupont 66 Nylon Double BELTED Polyflex

New breed of Belted Tire! Double-ply Dupont 66 Ny-lon plus 2 Polyester belis. If bigger mileage at low per mile cost is important to you, but you don't want the harshness of Glass or Steel' Belted tires, compare soft-riding Polyflex. Captures most the attributes of ori-ginal Glass construction: typical on-track steering, improved traction, excellent mileage.

STORY OF

Meet a Proud Canadian.

Canadian Rye drinkers chose Corby Royal Reserve over one of Canada's most famous premiumpriced whiskies!

It all started when we asked a panel of 150 regular Canadian rye drinkers-people with tastes like yours-to sample two brands, our Royal Reserve and a famous premium-priced Canadian.

Results? Our Royal Reserve was preferred by 58% of the panelists over the premium-priced brand.

Next time you're buying, try the Proud Canadian. We think you'll find its character and quality make it one of the finest ryes you've ever enjoyed. (And we know you'll find its price an equally pleasant surprise!)

Choose Food Wisely

for good health and a balanced budget.

Dominion's Home Economist Consultant

4 Wise Choices to good health...

- A wise choice of food variety provides eating pleasure and enjoyment every day.
- 2. Food variety provides the correct balance of food nutrients for building and rebuilding body structures.
- 3. Good health means providing the proper daily balance of vitamins necessary to regular body function.
- A wise choice of foods provides just enough calories for energy and warmth and no extras for burdensome fat.

The basic secret of a well balanced family meal planning as well as balancing the budget is in choosing wisely. The choice is really yours. Learning to differentiate from the wide variety of foods available. enables today's modern food shopper to have good enjoyable meals at all levels of cost.

For instance, foods of the same kinds, are available in several different forms at various stages of preparation. You can learn more about selecting foods...learn more about the seven food groups...get an easy guide to choosing a balanced meal every day; this week at Dominion...to help you to a better understanding of food.

There are plenty of reasons to shop at Dominion

is just one of them!

Besides EVERYDAY DEEP DISCOUNT PRICES more Canadians shop Dominion than at any other store—mainly because of the meat...plus quality, variety, and

Restful Qases

Belleville citizens show their apprecia-tion of such park areas as Zwick's Island by the considerable use they make of them. We wonder though how many are aware of such other delightful, if more remote, spots as Stanley Park in its sylvan setting off Edgehill Road. Here of course the swings and other delights of children are missing and other designs of changes are massing and there is only a radinatum of parking space. In short, this little park will never have the mass appeal of Zwick's Islands, neverthless, it is pleasant to know it is there, with its plenic tables and ample walking

PHARMACISTS

Geen Drugs Limited, 276 Front Street, an up to date and modern drug store; is actu ally the oldest druggists' establishment in Belleville.

It dates back to the year 1835, when the pharmacy was founded by the pioneer physician Dr. R. Holden. At that time it was located at the corner of Front Street and Victoria Ave. In 1841, the store was registered with the College of Physicians and Surgeons of Upper Canada as an

In October 1871, the business was purchased by Albert L. Geen, from Dr. Holden's son J. C. Holden, and now over 100 years later it is still operated by his descendents

Percival W. Geen, Phm.B., graduated from the Ontario College of Pharmacy in 1907, ained active in the business until his death in 1972 at the age of 88.

Alwyn F. Geen, Phm.B., joined the firm after graduation from pharmacy in 1941. Lyle A. Twiddy, Phm.B., joined the firm in 1942 and in 1971 Steven Casselman, B. Sc., Phm., joined the

A loyal and conscientious staff has been the key to success for Geen's Pharmacy. Special mention should be made of Mrs. Anns Foley, and Mr. Walter Symons. These outstanding employees have done much for the reputation of this fine drug store.

Energy Statement Coming

WASHINGTON (AP) — President Nixon said he would make a statement today on the energy criacs, and he was expected to call for a five-per-cent reduction in personal consumption of energy in the United States, led by government efforts to cut energy tile by seven per cent.

Early Start Better

OTTAWA (CP) — Energy development pro-jects, particularly those in the North, are likely to provide needed jobs and be handled more almosthly if started during the 1970s rather than the 1980s when they will be required. UCS Troubles

The continuing agoine of the United Community Services executive afford Bitle reason for public confidence.

It has been clear for some time that relations between the UCP board and its executive director, before Cooperna, or referred to the continuing on the following a recent move to force so "refignation."

Now the board has given Mr. Cooperna a one-rote margin in favor of his remaining on the fold. This in turn has led to the resignation of Ringh Report, predefent vice-preddent and chairman of the last United Appeals.

of the board, and George Zegouras, its first vice-president and chairman of the last United Appeal.

Whether the UGS trouble may be considered exercised by these developments is another mather but one thing is clear, if relationships are not restored quickly between the board, its executive director and the public then a further and evels more thorough house-cleaning will be mecissary. As things stand there is considerable concern over the boaldson of the public from public (whose mentary contributions to-ward community groups and activities are what the organization is all about) should be fully informed.

Nothing Has Changed

For all the condiality and the atmosphere f agreement, in the meetings between resident Nixon and the Soviet Union's could Brezhney, westerners should not de-de themselves that the Communist prac-ce of infiltration and subversion will just

fade away. Indeed the new aura of detente between east and west could be dangetous, with the free world dropping its guard and allowing the insidious processes of Communism to work their way through our democratic
